

NUVEXA 30

THE NEW EXSTACY
IN BIOENGINEERED
SKIN HEALTH

Product	SKU	Dose
NUVEXA 30	NUV30	508

Discover the Science:

Through extensive research and development, Nuvexa 30 blends the perfect fusion of science and nature to rejuvenate your skin. We start with umbilical cord-derived exosomes, known for their exceptional potency in Placental, Vascular Endothelial, and Transforming growth factors. These unique growth factors, exclusive to Nuvexa 30, support your intensive healing process, aiding recovery from cosmetic procedures and daily exposure to environmental factors and the sun.

Nuvexa 30: Convenience Meets Potency

Nuvexa 30 is a shelf-stable product that requires no refrigeration. Our Lyophilization process dehydrates without denaturing the crucial peptides, proteins, and growth factors essential for collagen-based healing. This means you can safely apply Nuvexa 30 daily to support your cosmetic needs.

Transparency and Trust:

We proudly disclose all Nuvexa 30 ingredients, inviting you to witness and compare their potency. We believe in the power of seeing, and we guarantee that you'll be astonished by the results your clients are about to experience!

Join the Nuvexa 30 Skincare Revolution:

Are you and your patients ready to unlock healthier, more radiant appearance than ever before? Bid farewell to gimmicks and welcome a proven, natural glow. Trust us, you won't be disappointed.

Experience Nuvexa 30 and reveal your skin's true potential. Join the skincare revolution today!
